

GLOBAL NURSING PROGRAM

Texas Woman's University
5500 Southwestern Medical Ave
Dallas, TX

2017 Global Nursing Program (GNP):

Cardiovascular Disorders and Woman's Health

Texas Woman's University (TWU)
January 2-13 in Dallas, Texas

The purpose of the GNP is to allow overseas nursing students to have an opportunity to learn *critical cardiovascular disorder and women's health care and demonstrate nursing skills and knowledge* based on evidence-based articles.

The faculty will provide the students with a variety of cardiovascular disorder and new born/labor case studies, informatics case, simulations, virtual IV, and a chance for hospital rounding. Additionally, there will be a multicultural exchange day in which students will be able to learn about other cultures.

TWU Program Faculty Members

Dr. Ho Soon Michelle
Cho

Dr. Catherine Bailey

Ms. C. Halverson

Ms. Margaret Peters

Dr. Rosemary Jaekel

Ms. Allison Dittmar

Dr. Stephanie Woods

Dr. Mikyoung Lee

By attending the program,
participants will be better able to:

- Examine critical competency integration content, including nursing skills and nursing knowledge based on simulation, case study, and informatics case
- Describe strategies for new learning methods of the simulation, informatics case, virtual IV, and implications for nursing practice
- Discuss methods to measure the program and the program outcomes
- Explore and learn American culture and nursing practice
